8. Outcome of the Activity: The Department of Chemistry of college has organized an educational visit to Laboratories of Department of Chemistry and Department of Physics of

Central University of Punjab, Bathinda sponsored by DBT, New Delhi under Star College Scheme on 03.03.2023. More than 100 students of B.Sc. Medical and Non-medical and M.Sc. Physics enthusiastically participated in this educational visit and acquired the knowledge of various research lab facilities available in Chemistry and physics labs of university. The students got exposure for future research prospects in science education and research. The students were overwhelmed to see the various laboratories like Organic synthesis, Physical Chemistry and Inorganic chemistry research labs and equipments like GOUY Apparatus, DLS apparatus, UV spectrophotometer, Refractrometer, BET-Surface Area Analyzer etc. The different experiments demonstrated to students in physics labs are Millikan oil drop experiment, Franck Hertz Experiment, Michelson interferometer experiment, GM Counter, GATES experiment, Zener Diode as voltage regulator, oscillator. Also, some research topics were discussed with students like Energy storage devices, supercapacitors, spray pyrolysis and solar cell fabrication to develop research interest in students. The faculty members of the Departments of Chemistry and Physics accompanied with the students. This educational visit boosted the morale of the students and enlightened the scientific temper among the students.
